2 of 2 people found the following review helpful. The Most NECESSARY book for any home buyer; read this first THEN buy. By BEANIEa Wonderful book to consume before buying a house. a friend of mine used the advice in this book and saved herself thousands of unnecessary dollars during closing; she called them on the phony charges and had them on their knees! She said she is so glad she read the book; the author gives the reader all the tricks slipped on buyers unaware and helps us protect ourselves. If you plan to buy a house, GET THIS BOOK!!!!!!1 of 1 people found the following review helpful. This is what I needed By Roy PayneI was clueless to what buying a house consisted of prior to reading to reading this book. Now, I'm more confident that I can purchase a home, maintain it, and be on my

way to having wealth! 2 of 2 people found the following review helpful. first time  
By Karen I like the practical application of this book. I just started reading it and so far I really like what I'm reading. It defines the terms and process in an easy to understand manner.

For renters who dream of becoming home owners, this comprehensive guide shows each phase of the home buying process in a simple step-by-step manual.

From the Author "My passion is to help Americans become financially stable. I believe that homeownership is a critical cornerstone of their financial plan for the future. To get this important message out to the millions of families, we decided the most effective method to reach prospective home buyers would be a book." "Yes, you too can become a homeowner. Follow us as we show you how to navigate the home buying process with success!" "From the Inside Flap What is great about America? It is the American Dream, of course. It is the idea that we are in control of our own destiny, free from harsh government sanctions as in some other lands. It is the rights and the freedoms that so many other countries do not have. Sometimes we take our basic values for granted, including home ownership, which is a luxury not afforded to residents in some other countries. Millions of people from all over the world flock to the United States because of the American Dream, and the basic tenet of that aspiration is home ownership. I strongly believe that every family should own their own home, and they can accomplish this dream if they have a guide to follow. You may have some doubts about whether you can buy a home, or you may be uncertain about how the process works. You may be thinking, "The process is overwhelming. I don't even know where to begin. It's too complicated. Who's going to help me?" I agree that home buying takes some time, energy, and effort. But the freedom of home ownership is so rewarding, your family will be thrilled and I promise it will be worth your effort. You can do it! All you need is a guide that you can follow, and a quality real estate professional to assist you. That's why our book is outlined as a guide that you can easily understand. Just start with Step 1 and follow the 9 steps in this book. We will guide you each step of the way. We'll also show you how to hire a dedicated REALTOR you can trust, so you will receive professional guidance and direction. Let's get you the best home that your budget can afford. I know that you will follow these steps. So I dedicate this book to you! You have the courage to take action and make your dream of homeownership come true." "From the Back Cover" "Sage advice for aspiring home owners seeking to free themselves from the tyranny of a landlord." "This evergreen topic is a practical, no-nonsense, step-by-step guide that's relevant for any season of the market." "Finally! A true advocate for the home buyer. It's what we've all been waiting for." "The author doesn't gloss over the pretty parts, she digs deep and exposes you to the nitty-gritty details of the making of a transaction." "Follow these instructions if you want to be miles ahead of other home buyers." "Spend 3 hours in this crash course and save 3 months of home shopping effort." "Tips, tools, techniques to give you the competitive edge in house hunting." "Reveals secret insider info that no one else will tell you!" "I pity the Realtor who isn't as well prepared as his educated Buyer." "The ultimate guide for consumer knowledge and protection." "Thinking about buying the biggest purchase of your life? Don't wing it by yourself. Get educated and find out how to get a team of professionals working for you."
