**Bruce Asakawa : California Gardener's Handbook: Your Complete Guide: Select - Plan - Plant - Maintain - Problem-solve** before purchasing it in order to gauge whether or not it would be worth my time, and all praised California Gardener's Handbook: Your Complete Guide: Select - Plan - Plant - Maintain - Problem-solve:

0 of 0 people found the following review helpful. Great Resource By Dan Taylor Bought the book because I was a fan of the West Coast Garden Line. Very happy with my purchase. 1 of 1 people found the following review helpful. Ok for a starter By craftygranny I got this book because I like these authors. I have another of their garden books. This book does not really cover any new information and seems a little bit lacking in detail for me. If you don't own a bunch of

garden books already, this might be great for a beginning gardener. 1 of 1 people found the following review helpful.  
Awesome book By Mom of twins Very Helpful. Nice to be able to view products and plants i'm not used to. Awesome book, would recommend to another.

The California Gardeners Resource is filled with need-to-know information from popular gardening experts who include their collective wisdom in one complete guide. In addition to the hundreds of proven plants, this resource has monthly-to do calendars assisting gardeners with the proper care and timing for everything from planting to watering. Water-wise plant selections and advice on gardening with less water addresses the challenges of gardening in California.
