The glue that holds the book spine and pages together was not intact when I received the package. The CD-ROM will not load on the new iMac computer either but it did load just fine on my HP PC laptop. I took my

iMac and the cd-rom to the Apple store and they said the cd-rom is mis labeled because it is not compatible with the iMac. But the dictionary is a good one. 0 of 0 people found the following review helpful. Five StarsBy SandaGood if you want to study advanced english0 of 0 people found the following review helpful. Great dictionaryBy DavidI had used the 2nd edition of Cambridge Dictionary software for nearly 10 years. I bought the 4th edition because a lot of words were not included in the old one. The GUI is not much different. Every word is explained clearly with examples. Actually I just need the software to run on my computer but they don't sell it separately. The hardcover version looks very good anyway.
