The equivalent of a college course, presented in an understandable manner.By Shawn CThe book is very informative in all aspects of career goal setting, development, and achievement. I purchased this because it was required for my college career course, but it ended up being so much more than a text book. It starts with a self examination that helps you determine your skills and interests, and what type of career you hope to get. Then it guides you to setting and achieving that career goal through networking, resume building, professional cover letters and applications, and how to interview. This book was so helpful to me that I would say with confidence that you could read this book instead of taking a college career course.0 of 0 people found the following review helpful. I'm giving this four stars because it's great for what it isBy JamieI'm giving this four stars because it's great for what it is, but I didn't find anything too groundbreaking here. I had to use this for a college course and I didn't

see much I hadn't learned in high school business classes. 1 of 1 people found the following review helpful. Pretty good  
By Carly(Evermore)  
This book is pretty good, got it cheap and much better than my school who wanted 60\$ on it when i could only get it for \$8 or so  
The book is in a really good condition, like it was new  
I recommend this book for everyone, it will help out how to make your resumes, how to properly prepare for an interview and etc.
